
Mum, everyone is talking about AI. But what is that?
Katerina, 9, asked the one person who should know. Her mum is a radiographer and uses AI every day for her work.
GR4AI

GR4AI

I find it very interesting. But isn't it also dangerous?

GR4AI
We asked ourselves: how do you explain AI to a child?

Nothing like it existed.
So a team sat down.

Friends, family, AI experts, an illustrator and many children.

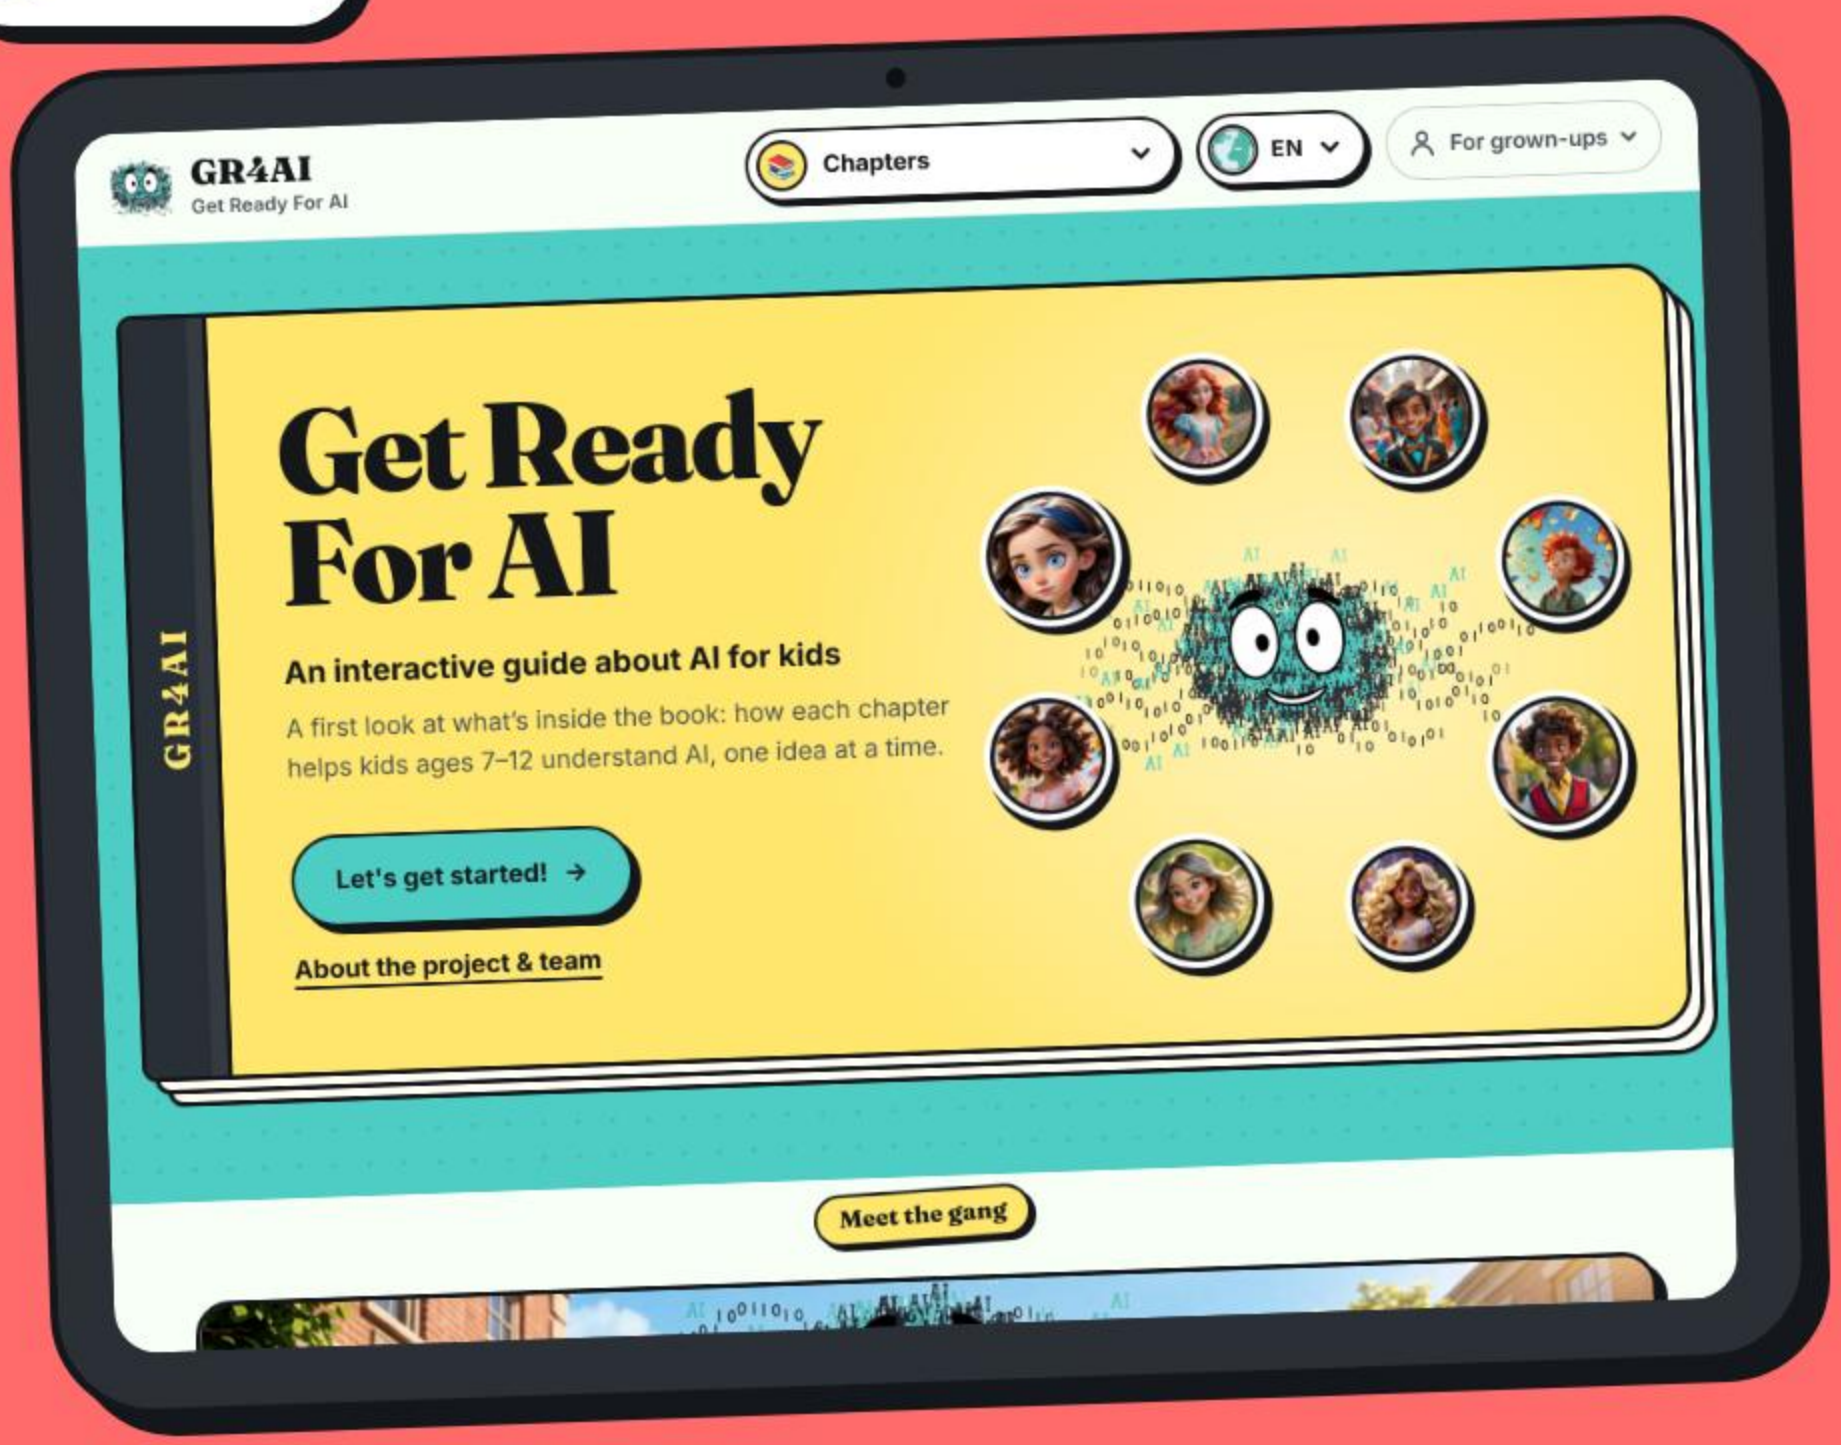

GR4AI

Children led from the start.

They edited the site until the very end.

GR4AI

PARENTS AND TEACHERS

We created Get Ready For AI.

A free online book that explains AI to kids aged 7 to 12.

The Tricky Side of AI

How computers work

What is AI?

AI in Daily Life

Moving from the physical environment to the digital world

The Good Side of AI

What can AI do?

Responsible AI: Using It Wisely

AI in Fashion, Space & More!

How AI Actually Learns

Real People, Real AI Jobs Around the World!

The Future of AI

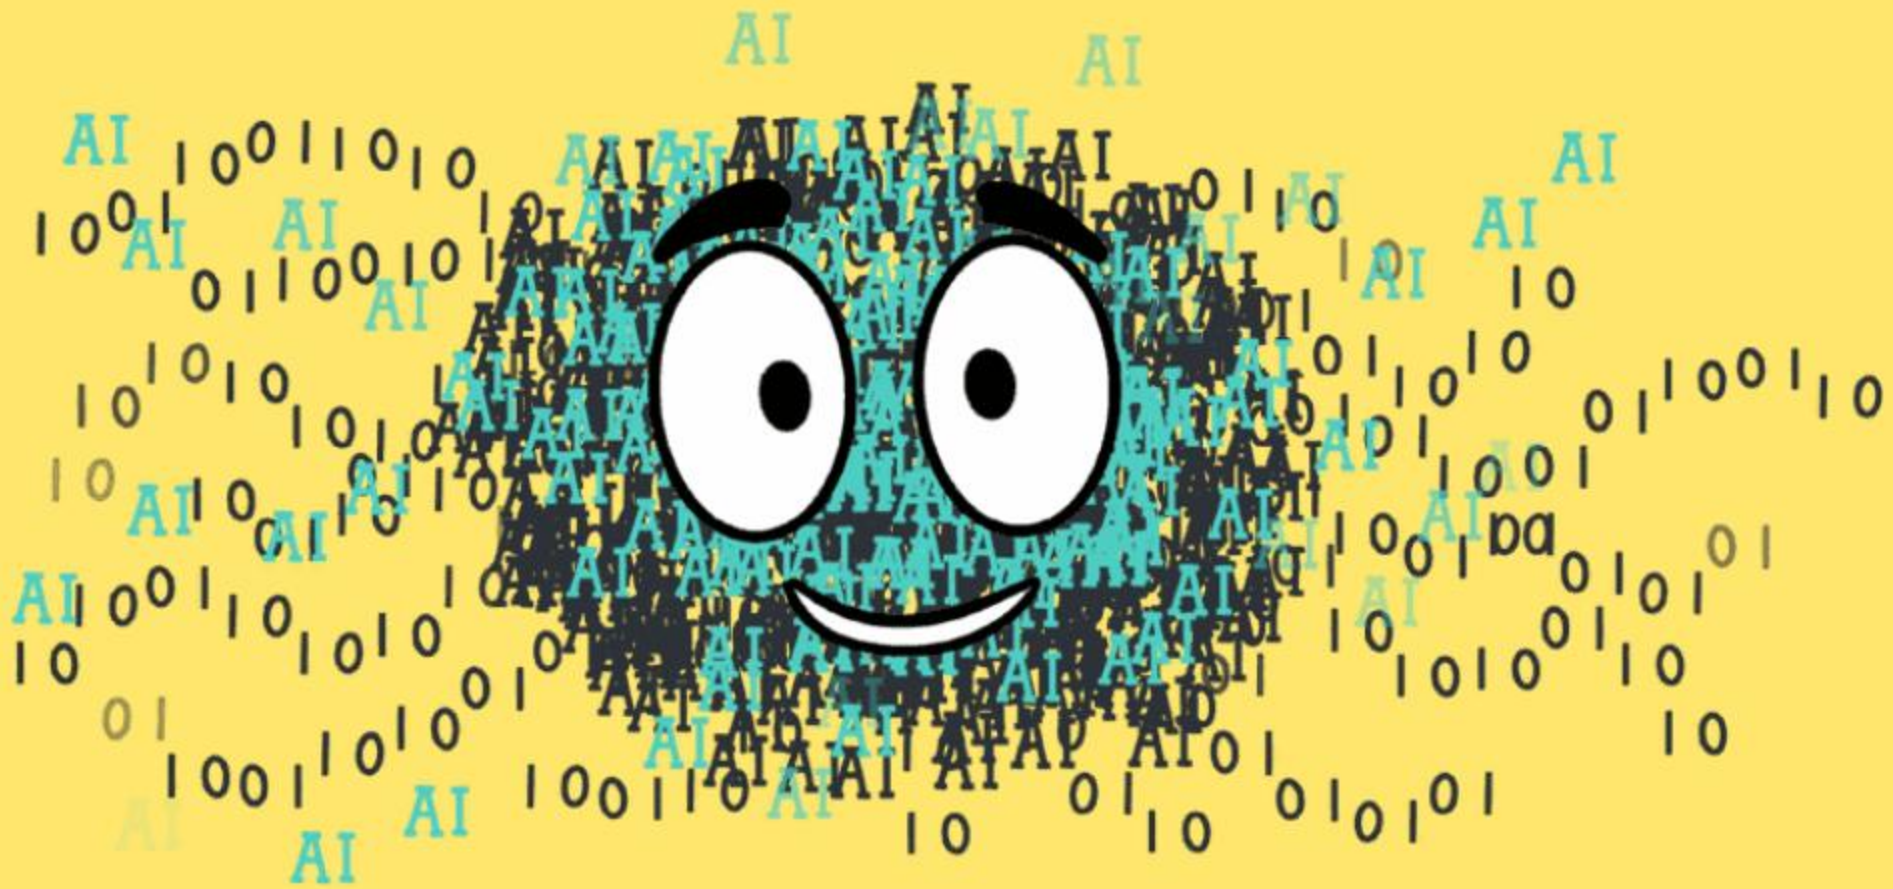

What Should I Study?

AI Careers: Your Future!

Our Responsibility: Keeping AI Good

15 short chapters.

With a quiz and a certificate at the end.

Live now.
Free for everyone.

Check it out with your kids, students or colleagues.
